MERRY FISHER 1295 Fly : THE JOY OF CRUISING

This new Merry Fisher 1295 Fly features multiple living spaces especially designed for relaxation with family and friends. Plenty of time for swimming and moments with your feet dangling in the water from the aft cockpit, with the electrically controlled starboard-side terrace. Port side, a large side door facilitates the access for everyone on board.

With large, bright windows and a panoramic view over the water, life is sweet aboard this flagship, enhanced by a refined, contemporary selection of materials. Take your place at the helm, and take advantage of the very latest technologies, found aboard the largest boats, for easy handling. The starboard-side door will allow easy access and facilitate maneuvers, for cruising with complete peace of mind. Cast off, and take up residence in one of three comfortable cabins, for a peaceful rest on the water at each stop along your cruise !

MERRY FISHER 1295 COUPE: THE JOY OF CRUISING

After the successful launch of the Merry Fisher 1295 Flybridge in 2022, Jeanneau announces the launch of the flagship model in a Coupe version.

The new Merry Fisher 1295 Coupe confirms further movement of the brand upmarket. This model has been long-awaited in numerous regions of the world, where it is less sunny or with clearance constraints for cruising. She features all the key strengths of the line: versatility, modular design, space, and clever layouts.

This new model joins the Merry Fisher Weekender line, which ranges from a large outboard cruiser with flybridge to an express version.

Family Cruising

Staying true to its lineage, the Merry Fisher 1295 Coupe benefits from additional comfort, enabling families to extend their stay on the water and experience superb moments of escape year-round, in any weather.

The new comfortable and inviting saloon is bathed in natural light from two opening glass hatches on the wheelhouse roof, providing additional ventilation.

MERRY FISHER 1295 COUPE: THE JOY OF CRUISING

With her three cabins and two head compartments, she features all the elements that make the Merry Fisher 1295 a success: a panoramic view over the water, large, bright windows in the hull, a forward owner's cabin with separate shower, and two guest cabins, either with twin berths or with one large berth.

The U-shaped galley, well-equipped and with ample storage, opens onto the cockpit and exterior living areas, creating an inviting gathering spot. A swivelling pilot seat allows for easy interaction with guests in the saloon, while a cozy sofa, just like at home, encourages shared moments with family and friends.

Attention to detail has been a top priority. The interior fit and finish have been carefully crafted to offer a remarkable quality of life on board, with plush sofa seating for refinement and comfort. A new table with two folding leaves and an electrically adjustable height adds convenience and functionality.

This boat checks all the boxes for enjoying a fun family cruise, with exceptional distinct living areas that ensure everyone's privacy during multi-day outings!

Yachting Style

Our product development team goal was to make handling a 40-foot boat exceptionally easy, putting all the controls all at your fingertips for enhanced accessibility and manoeuvrability.

Taking inspiration from larger yachts, this new model is equipped with options that rival the larger models: joystick, gyroscopic stabiliser, air conditioning, generator, and more.

Her stable hull enables quick planing, for minimal bow rise and level cruising and enjoying comfortable cruises even at reduced speed.

With a high-performance, reliable outboard engines delivering triple 300 HP, the Merry Fisher 1295 Coupe is a safe, secure boat for moments of pure happiness on the water.

Guaranteed Escape from the Everyday

On deck, the new Merry Fisher 1295 Coupe is entirely turned toward the sea.

The electrically controlled side terrace opens to starboard, expanding the spacious aft cockpit, ideal for enjoying a generous life onboard! Portside, the side door facilitates access on board.

Forward, it's time to relax, with the three integrated sun loungers in the cockpit for basking in the sun or unwinding under a large sunshade.

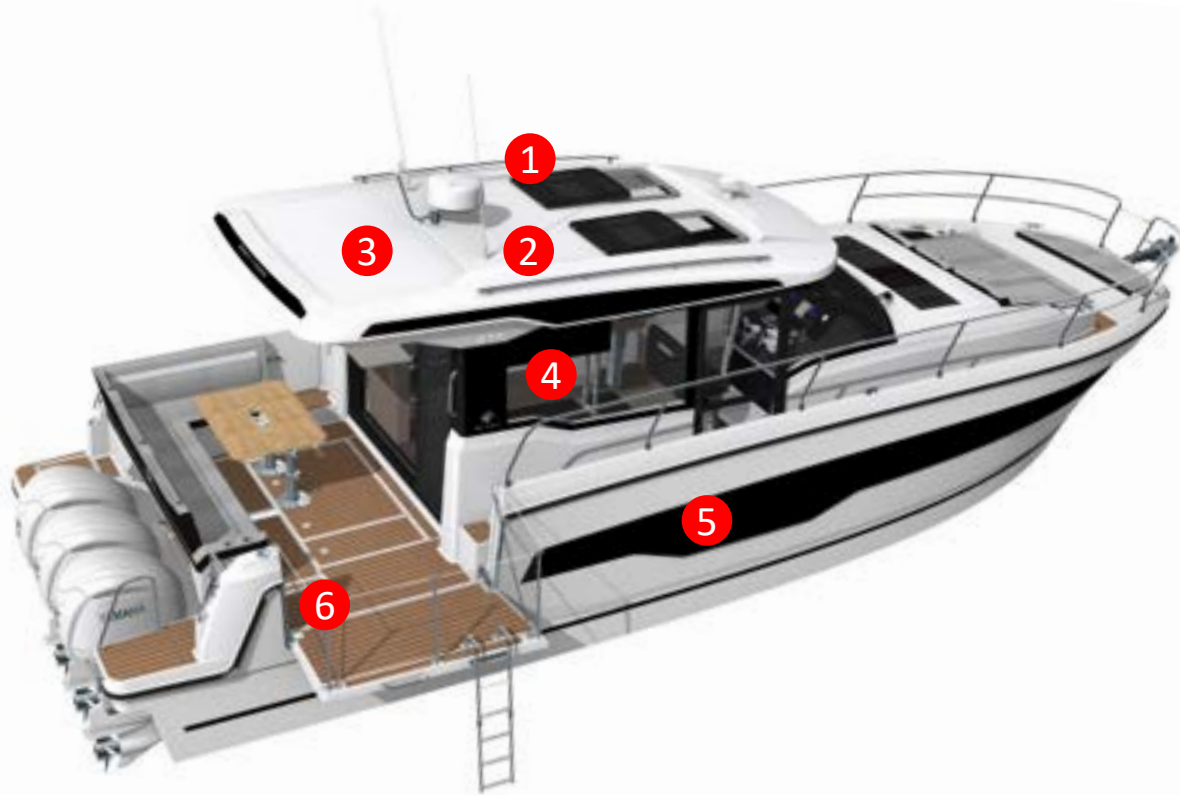

Facing seating and the option to add a table create an inviting atmosphere in this area, accessible in complete safety from the aft cockpit and the helm station via the large starboard side door.

This flagship will win over all those who enjoy cruising with family along the coast, focusing on comfort and relaxation, both inside and out! It offers a new experience for everyone on board: feeling right at home while surrounded by breathtaking scenery.
